- A**1\* , **A**1\* ; **A**1 , **A**1 ; **A** , **A**..... Characters of Iron, Steel, or Composite Vessels built according to the Rules.

The figures in the 17th (Sailing Vessels) or 16th (Steamers) Column represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent respectively, as assigned by the Underwriters' Registry, but these drafts do not indicate approved load lines.

The Figures under a Character denote the date when the Vessel was last Surveyed.

The 6th, 7th, and 8th Columns (Sailing Vessels) or 5th, 6th, and 7th Columns (Steamers) left blank, indicate that the Vessel has never been Classed in the Register Book.

When the sixth (Sailing Vessels) or fifth (Steamers) column is left blank except as regards the date of Survey last recorded, it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fee due in the case.

The dates following the name of the Master in Col. 3 (Sailing Ships) and Col. 2 (Steamers) indicate (1) the year when the Master entered the service of the present Owner of the Vessel and (2) when he was appointed to the Vessel.

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

# NOTE EXPLICATIVE DES MARQUES DE CLASSIFICATION DANS LE REGISTER-BOOK.

## CLASSIFICATION DU LLOYD'S REGISTER.

- \* **A1**..... Cote des navires en fer, construits en tôles plus fortes que celles qui sont exigées par les règlements actuellement en vigueur.
- A1 A1 A1**..... Cote des navires en fer construits conformément aux règlements de la Société, en vigueur de 1864 à 1871.
- A1**..... Non précédé d'un chiffre, cote des navires en fer, construits pour un service spécial.
- 100A1 95A1**  
**90A1 85A1**  
**80A1 75A1** } Cotes des navires en fer ou en acier, construits conformément aux règlements de la Société pour navires en fer, depuis 1869.
- A1**..... Cote des navires en bois et composites de la première classe, bien et suffisamment équipés. Les chiffres de la 5<sup>me</sup> colonne (Bateaux à vapeur) et de la 6<sup>me</sup> colonne (Navires à voiles), précédant cette cote, indiquent le nombre d'années pour lequel le navire est classé présentement ainsi: 11A1, Cont. 6A1, Rest. 6A1, (voir la note pour Cont. et Rest.) Les chiffres placés dans la 7<sup>me</sup> colonne (Bateaux à vapeur) et dans la 8<sup>me</sup> colonne (Navires à voiles) indiquent les années expirées de la période de durée assignée à la cote originelle, si le chiffre est placé à la première ligne, et de la période de continuation, s'il est placé à une des lignes en-dessous.
- A1**..... Cote des navires qui ont dépassé la période de durée assignée à la cote par la visite originelle ou par celles de continuation ou de restitution, et des navires n'ayant jamais été cotés dans le Register, mais qui sont reconnus propres au transport de marchandises sèches et périssables. Le nombre d'années pour lequel la cote A en rouge est assignée, est inscrit sous la cote dans la 5<sup>me</sup> colonne (Bateaux à vapeur) et dans la 6<sup>me</sup> colonne (Navires à voiles); ainsi: **SSPly. 88-6 yrs.**
- Æ1**..... Cote des navires propres au transport de marchandises sèches et périssables pour de courtes traversées. Le nombre d'années pour lequel la cote Æ est assignée, est inscrit sous la cote, dans la 6<sup>me</sup> Colonne (Navires à voiles); ainsi: SS. Ply. 88—4 yrs.
- E1**..... Cote des navires qui, lors de la visite, ont été reconnus propres au transport de cargaisons qui par leur nature ne sont pas exposées aux avaries d'eau.
- Le chiffre 1 ajouté à la cote, indique que le navire est bien et suffisamment équipé. Un trait après la lettre A (ainsi: A—) signifie que l'équipement est défectueux d'après les prescriptions du règlement.

Un cercle à travers le chiffre 1, ainsi **⊙**, indique des déficiences signalées dans la mâture ou dans le gréement d'un navire à voiles, de nature à compromettre la sécurité du navire.

Un cercle rouge à travers le chiffre 1, ainsi **Ⓛ**, indique des déficiences signalées dans les machines et chaudières d'un Bateau à vapeur, de nature à compromettre la sécurité du navire.

## CLASSIFICATION DU "UNDERWRITERS' REGISTRY."

- A1\*, A1\***..... Cotes des navires en fer ou en acier, dans la construction desquels on a surpassé le règlement et employé du fer de qualité supérieure.
- A1\*, A1\*; A1, A1; A, A**..... Cotes des navires en fer, en acier, ou composites, construits conformément au règlement.

Les navires cotés en rouge ont été construits sous la surveillance des Inspecteurs du Liverpool Registry.

Les chiffres 1 et 2 ajoutés aux marques de classification, signifient la cote de l'équipement.

Les chiffres placés dans la 17<sup>me</sup> colonne (Navires à voiles) et dans la 16<sup>me</sup> colonne (Bateaux à vapeur) représentent le tirant d'eau moyen, correspondant à une immersion de 65, 70, 75 et 80 pour cent, respectivement, comme il est assigné dans le "Underwriters' Registry"; mais ces tirants d'eau n'indiquent point les lignes de charge admises.

Tous les navires doivent être visités périodiquement. La date de l'expertise ne certifie que l'état des navires à l'époque de la visite.

N.B.—Afin d'éviter les mécomptes provenant de la déchéance de la cote d'un navire pour avoir négligé la visite, avis est donné par la présente, qu'il est du devoir des armateurs, capitaines ou agents, de demander les visites périodiques imposées par le règlement. Il en est de même dans le cas où des réparations sont devenues nécessaires par suite d'avaries ou pour une autre cause quelconque.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
